Thank you for purchasing Look2Go, the fast and easy way to get long, natural, shiny full-bodied hair. The Look2Go set consists of 7 pieces of 100% natural hair that can be attached to your own hair using the revolutionary Clip-In system to give you a luxurious head of hair in a matter of minutes.

Look2Go extensions are made of 100% natural hair. With shiny, young, high-quality hair, the effect is also 100% natural, 100% dazzling.

The 100% Natural Look2Go hair extension set consists of a total of 7 pieces:

- 1 piece with 4 clips, 41 cm long (16")
- 1 piece with 3 clips de 41 cm long (16")
- 5 piece with 2 clips de 36 cm long (14")

Look2Go: A revolutionary system for two reasons:

- With Look2Go you'll be able to change your look quickly and easily, thanks to the exclusive Clip-In system, which allows you to attach the extensions in a matter of minutes. And taking them out is just as easy!

- Because they are made of 100% natural hair, Look2Go extensions can be handled just like your own hair, with a blow dryer, flat iron or curling iron. You can even dye them using standard hair dyes.

Look2Go colours available:

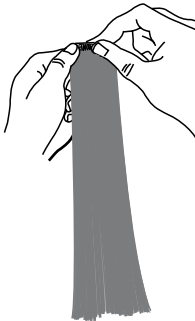

1. Black
2. Dark Brown
3. Chestnut
4. Medium Blonde
5. Light Blonde
6. Natural Red

Instructions for Use: Step by Step

First become familiar with the Clip-In system:

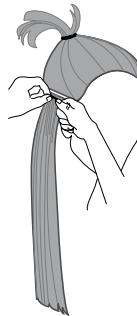

Opening/Closing the Clip:

To snap open the clip, pick up the piece with the clip side facing you. Put both thumbs on the front part of the piece and the index fingers on the back side and press away from you. To close the clip, do the opposite action, i.e. press towards you

Snapping the clip into place:

The clips on the Look2Go extensions act like a comb. Open the clip and attach it to the selected section of your own hair, as close to the roots as possible, and press to snap the clip closed.

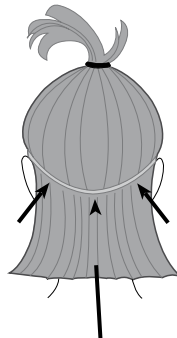

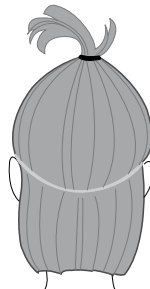

Recommended steps to follow:

Look2Go extensions are attached in layers to achieve the effect of natural hair. The pieces with 4 and 3 clips are designed to be attached in the lowest part of the back of the head. The extensions with 2 clips are used on the sides of the head.

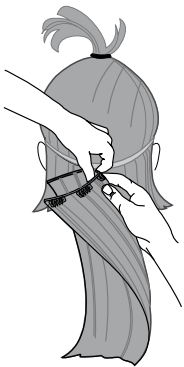

1. The pieces should be attached from the lowest part of the head to the highest. Make the first part in the hair to attach the piece with 4 clips. This part should be in the lower section of the head. Use a tail comb to make the part and clip up the hair above the part to get it out of the way.

2. The piece should be attached to your own hair in the section below the part. The clips should be attached as close to the roots of the hair as possible for a more natural look.

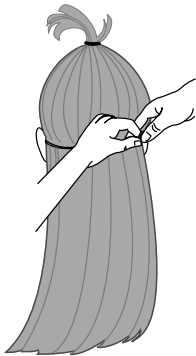

Instructions for Use: Step by Step

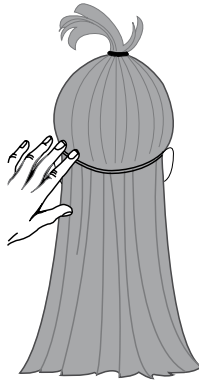

3. Open all the clips in the piece with 4 clips. We recommend snapping the clips in the middle of the piece first so that the extension is centred.

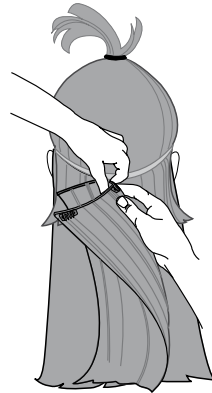

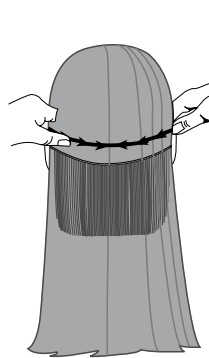

4. Once you have attached the centre clips, snap in the ones on the side in the same way.

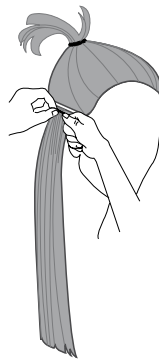

5. Make sure the piece is attached with all the clips.

6. Make another part in the hair above the first one. Attach the piece with 3 clips by following the above recommendations. Snap in the centre clip first so that the piece is centred and then clip in the side clips. Make sure the piece is firmly attached to your hair.

7. After the two large pieces have been attached, attach the pieces with 2 clips to your hair to achieve the effect you want. We recommend using them on the sides to increase the volume of your hair, given that the back of your head should be full from the pieces with 4 and 3 clips. To attach the pieces with 2 clips, make a part and attach the clips as close as possible to the roots.

✓ To remove the Look2Go extensions, we recommend removing the pieces in the top part of your head first and working your way down. To remove the pieces, just snap open the clips one by one.

To remove the Look2Go extensions, we recommend removing the pieces in the top part of your head first and working your way down. To remove the pieces, just snap open the clips one by one.

Maintenance Instructions

Cleaning

Look2Go extensions should be washed after 3 to 4 uses. The extensions should be washed after taking them out of your hair.

Before washing them, the extensions should be combed and the tangles removed. A spray-on conditioner may help remove tangles.

Use a mild shampoo specially formulated for dyed hair.

Soak the extensions in warm water and wash them with shampoo. Do not twist or scrub the extensions.

Rinse the extensions under cold running water. Make sure all the shampoo is rinsed out.

After rinsing, we recommend using a mild conditioner for dyed hair and gently combing the extensions. Rinse them again under warm running water.

Place the wet extensions on a towel to remove

excess water.

You can now dry them with a conventional blow dryer or hang them up and let them air dry.

Treatment: Styling and colour

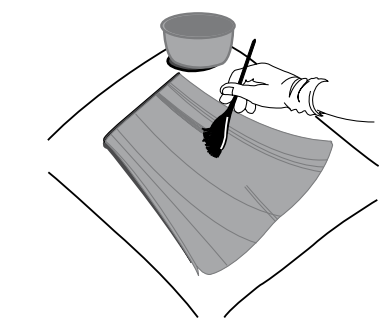

To style Look2Go extensions and create your own look, you can use many different styling techniques because Look2Go extensions are made of 100% natural hair: curling irons, flat irons, blow dryers, steam rollers and other styling devices. It is always best to use heated devices on the lowest settings to ensure optimum maintenance.

You can also use hair spray, styling foam and any other styling product you like.

To change the colour of your Look2Go extensions, use a normal hair dye, since these extensions are 100% natural. We recommend using good quality dyes that are as mild as possible. You can dye your extensions at home by following the instructions of the dye in question.

Be careful to avoid stains when using the dye at home. Use a large piece of plastic or aluminium foil to spread out the extensions. Then apply the dye with a brush. After the waiting time indicated in the dye instructions, wash the extensions

by following the washing instructions above.

You can also take your Look2Go extensions to your hair salon to have them dyed.

Storage

Your Look2Go extensions should be stored in plastic bags to prevent them from getting dirty.

To keep them from getting tangled and for greater comfort, DO NOT sleep with your Look2Go extensions in your hair.

Warranty

This product is covered by a warranty against manufacturing defects subject to the time periods stipulated by the legislation in force in each country.

For reasons of hygiene, this product cannot be returned after it has been opened and removed from the package.
